LARGE FORMAT TECHNICAL PRINTER
SURECOLOR SC-T7730D

Even when the tiniest details matter, you can trust the SureColor SC-T7730D technical printer to help your businesses deliver remarkable results in every print. Achieving outstanding accuracy even for the finest lines with PrecisionCore printhead technology and an all-new chassis design, the printer also uses a range of top-class technology such as Variable Size Dot Technology to deliver vibrant, crisp prints at fast print speeds.

Precise, Accurate And Compact

PrecisionCore Micro TFP Printhead

Now with the larger-sized 2.64" printheads, the Epson SC-T7730D deliver increased productivity with faster speed in industry-leading precise droplet formation. Using the variable-sized droplets technology, businesses can expect crisp line accuracy, sharp text and vibrant photo quality in all their prints.

Self-Encrypting SSD

With the self-encrypting SSD, enjoy improved performance and handling of large print data. The 960GB additional storage memory allows the capability to create folders for PC-less production printing with its data secured by AES-256 and protected by a TPM chip. Users can also opt to set up password protection for specific folders in the in-built storage.

Outstanding Print Quality and Performance

Achieving the finest details both on paper and special media, the UltraChrome XD3 inks with new red ink produce prints in rich and vivid colours, especially for POP materials. Featuring six colours, including the all-new gamut-expanding red ink, businesses can print everything from everyday technical drawings to graphics and renderings. Water, smudge and fade-resistant, this cutting-edge ink set produces durable, vibrant, and long-lasting prints.

Improved Performance with Adobe PostScript

Delivering prints with improved accuracy for transparent and overprint layers, the SC-T7730D commands a faster processing time for PDF and PS output. This includes additional support for printing of EPS, PDF, PS, TIFF, JPEG and Cals-G4 data.

Improved Media Handling

With dual-roll capability, operators' workload is reduced and productivity is maximised. Using the function for automatic selection of different media types and sizes, operators can also use the second reel as a take-up reel for unattended non-stop operation. The sensor detection also allows operators to easily load and unload media for a fuss-free operation.

Take-up Reel Automatic Roll Switch

Ease-Of-Use Features

Full Frontal Operation Design

With intuitive front loading, the SC-T7730D improves convenience for operators with an innovative full frontal operation design. For non-stop productivity and increased efficiency, operational downtime is reduced with high-capacity ink cartridges, storage space for consumables, and dual rollers. Operators can easily check printer status on the 4.3" LCD touch screen, and print directly from USB storage devices.

Software Solutions

Print Management

Epson Print Admin* is a centralised print management solution that creates a secure printing and scanning environment through user authentication. Improve convenience with document distribution and pull printing, set rules and quota for better cost savings. A serverless version is available for organisations that require simple print management.

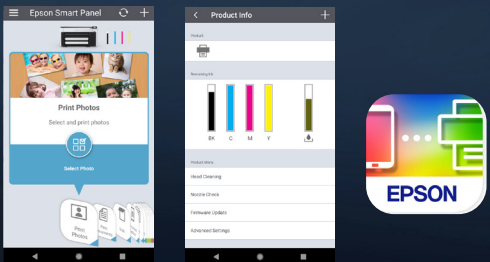

*Epson Print Admin requires a Windows Server.
Epson Print Admin Serverless requires SSD Option.

Fleet Management and Production Monitor

With the Epson Device Admin, operators can easily deploy and monitor the status of a fleet of mixed Epson devices. The IT admin can automatically update, troubleshoot, provide timely support, and also generate reports for accountability and cost savings. Operators can also monitor the live production status of equipment with Epson Cloud Solution PORT. Improve efficiency, optimise printing workflow, and reduce downtime by receiving accurate support by Epson conveniently with remote troubleshooting.

Epson Smart Panel

Make the most out of your Epson SC-T7730D with the Epson Smart Panel app. Transform your iOS® and Android™ mobile devices into an intuitive control centre. Operators can conveniently set up, monitor, print, and scan on Epson printers. With a variety of configuration features, you can customise the app into an all-in-one management app according to your needs.

Epson Edge Print Pro

An easy to use RIP software by Epson to provide the best print quality by maximising the printer's capability with advanced imaging processing technologies. High print performance and accuracy with Adobe PS engine to process PostScript data, the software is able to handle job and colour management for improved efficiency and colour accuracy.
